JHON KENNETH SEVILLANO

jhonkenneth.sevillano@dssc.edu.ph ❖ +639469280467 ❖ P6 Hagonoy Crossing

PROFESSIONAL SUMMARY

Dedicated IT professional with a strong commitment to continuous improvement and teamwork. Successfully designed and developed an employee leave system, streamlining processes and enhancing team performance. Skills in data management and software development support a focus on delivering quality results.

WORK EXPERIENCE

OJT IN Campus **February-April**

School Library

- Encoded and maintained library card ID information in the database to ensure accurate records for user access, supporting efficient library services.
- Scanned title pages and abstracts of hardbound research documents and encoded information into the system for digital accessibility, enhancing research document availability.

OJT Out Campus **April-July**

Nation Food Authority Region 11

- Designed and developed an employee leave system for the National Food Authority, streamlining the leave management process.
- Designed and developed a file management system for the National Food Authority, streamlining the leave management process.

PROJECTS

Capstone

Garbage Truck Routing Real-Time Monitoring Through GPS-GIS Integration in Digos City

- Designed and developed a GPS-GIS-based web application for real-time garbage truck tracking and route monitoring. Implemented live location tracking, interactive mapping, QR code verification, reporting, and route management using PHP, MySQL, JavaScript, Leaflet.js, HTML, CSS, and Bootstrap.
